Andro Mod » Tower Conquest (MOD, Unlimited Money) Tower Conquest - an experimental military tactical strategy game with rpg elements, an impressive collection of challenges and a fantastic atmosphere. The event unfolds in an alternative version of the Middle Ages, where scattered factions and virtual kings over the years have divided the throne and fought diligently for scraps of still untouched land. The war has been going on for a long time, but who will get the right to rule - that's another question! So isn't it time to download Tower Conquest Mods and not become an invincible champion? Tower Conquest – Hello Hero, Idol Hero, Clan ,... Probably the name you know on the market. The objective of this game is to collect as many powerful heroes as possible, then set up a team and copy. After a long time of playing, you want to find a game with rich heroes and unique skills, it is certain that Tower Conquest will be a game for your time to re-experience your desires. In this kind of strategy game. First of all, on how to play the game, the main objective of this game is to find and develop the perfect army to destroy the opponent specifically other bases of the enemy. When you play the game, you can explore the endless world with beautiful animations. As with other tactical games, it is certain that the new world will have new enemies as well as later enemies, increasingly difficult, you will have to build a powerful army that can gradually overcome that world. And when you get over some of the world's property by defeating your enemies, you'll earn as hard an income as money, equipment,... Then these factors are used to increase the strength of your army. So let's calm down and lay the foundations and build a powerful army fortress according to your own preferences. In addition to fighting, you can not only participate in tournament tournaments for players that show low power between players, but also learn something from your opponent, such as how to use heroes and military builders. Secondly, in the game character system, where you discover more than 180 characters from 5 factions, the game data will include data of 5 separate factions, each faction will have 70 characters, heroes and a unique castle. As mentioned earlier, you need to build the foundation of your base and overtake it. With a huge number of heroes and fortresses, you will find many ways to work together to develop your castle as well as heroes. This will be the richness of the game where each player has his or her own specific strokes. In addition, the game system allows you to enhance your heroes and evolve them into new forms. This is common in strategy games as each hero evolves into a new power, increasing attacks and assists. So, each of you will have 5 hero choices.It can lead to thousands of different combinations. It's worth the wait. Through the above factors, you should be confident that some of this is a game for tactical game fans. In fact, it is a game rated by use (4.5 out of 5 stars).
